

Every year, schools must identify their strengths and areas for improvement or development. The areas for improvement become that year's school improvement plan.

HYWEL DDA PRIMARY SCHOOL'S SCHOOL IMPROVEMENT PLAN 2022-2023

*Together we do our best to learn,
care and grow.*

Throughout the year, staff training, INSET days and courses will all focus on these priorities. We'll also be working with all the schools in the Ely and Caerau Cluster.

Wellbeing and Attitudes to Learning

- We're aiming to
- improve attendance and punctuality.
 - further develop the children's understanding and state of emotional health and wellbeing
 - support families and staff to have good mental and emotional health and wellbeing

Learning and Teaching for the new Curriculum for Wales

We are developing what and how we learn to develop a curriculum which fulfills the Curriculum for Wales and is exciting, engaging and purposeful so that we can really love learning and make excellent progress to become our very best.

Assessment in the new Curriculum for Wales

We're putting in place different assessment strategies to help every pupil make their best progress. Feedback (from staff, ourselves and our friends), tests, tracking, questioning - we'll only be using what really takes our learning forward in a purposeful way.

Literacy Skills

We are going to continue to make up for the learning and progress affected by the pandemic. We're going to focus on reading and phonics especially, with extra teaching of reading and phonics, as well as spelling, handwriting, speech and language. We're also going to work with our cluster to ensure we all have an agreed, clear understanding of how to progress in writing.

Throughout the year we will be monitoring how we're doing and will be feeding back to the Governing Body.

At the end of the year we will be evaluating the impact of our changes and improvements.
