

HYWEL DDA PRIMARY SCHOOL

SCHOOL IMPROVEMENT PLAN 2023-2024

Every year, schools in Wales look closely at themselves to identify their strengths and weaknesses. They then identify the most important priorities, which form the basis of the School Improvement Plan. Here is a summary of Hywel Dda's School Improvement Plan for the 2023-24 academic year:

Priority 1

To improve pupils' wellbeing and attitudes to learning.

We are developing new policies, procedures and actions to effectively stop bullying, improve behaviour and improve attendance. We want positive relationships throughout our school.

Priority 2

To improve teaching and learning

We are seeking out the best teaching and learning in our school and making sure it is consistently this good in every class. We want all learning to be just right for each pupil, so that everyone can make the best progress in a way which is suitable for the 21st century!

Priority 3

To improve the progress and standards in reading

Not all children are reading as well as they should be, so we are seeking new strategies to improve their skills. We want to make sure all children leave Hywel Dda as excellent readers, which will help them throughout their lives.

Priority 4

To improve progress and standards in maths

There have been changes across the world in the best ways to teach and learn maths skills. We want to develop these to ensure all our pupil really master great maths skills and understanding which they can use in many different situations

Priority 5

To develop as a community-focused school

We want to make sure our families know school is here for them and their children, as partners and for support, as well as supporting the wider community to develop to be a great place to live and grow up.

Together we do our best to care, learn and grow.
